

**Time will show series:**  
**Sage of Litecoin**

Body: Cut the holes for legs!

## Time will show series: Sage of Litecoin

"Sage of Litecoin" is third paper toy from the "Time will show" series, inspired by blockchain and cryptocurrencies. This character represents someone with great understanding abilities, someone who has access to multiple levels of existence, which makes him technically immortal.

The shape of his head symbolizes the speed of thoughts and he is faster than the Sage from MMIX, but still there are much faster sages.
